"THE BEST NEWS AND ADVERTISING MEDIUM IN THE CAMPBELL COMMUNITY"

VOLUME 31, NUMBER 5 | CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA | WEDNESDAY, OCT. 25, 1933

Current Comment

Of current interest is the fight for and against the $170,000,000 water act of 1933. Scheduled to be voted upon at a special election Dec. 19, the so-called "state-wide" water plan, to the casual observer, at once appears to be either a God-send or a gigantic scheme to further real estate operations and provide politicians with a new and bottomless hole in which to hurl public funds—depending upon the literature one comes by first.

The writer has read the arguments presented by both factions; our readers are urged to do the same. Then, and only then, will he be capable of arriving at a conclusion unswayed by the mob hysteria which marks every plan to spend huge sums of public money.

For instance, adherents of the plan claim that 25,000 men will at once be employed for a period of three years. The opposition points to the Boulder dam project, assertedly more massive than that planned for central California; there but 3,300 men are employed at the present time. The logical conclusion is obvious.

One side says the scheme is sound—the other that it is full of holes. The pros are positive that federal aid will be forthcoming; the antis are not so sure. That the project, if carried through, will result in agricultural overproduction, is easily seen—and that when the trend is to smaller production.

Of one thing the voter can be sure: Regardless of its feasibility, the water scheme, as any other tremendous work, is shot with potential stumbling blocks.

It is going to cost California taxpayers about a half-million dollars to stage the election—so it ought to be good. Every citizen should cast his ballot; and every citizen should thoroughly acquaint himself with the pros and cons of the project before he goes to the polls. It is foolish to go it "blind" when such a huge sum of money is involved, particularly in a situation the advantages of which seem to be unevenly divided throughout the state.

The Press has, it will be observed, made no attempt to sway opinion one way or the other; we have merely urged you to study the situation over very carefully. Regard it closely from all angles, and always keep in mind the sum of money involved; that will make it a vital issue even for those who are not particularly interested.

Huey P. (Kingfihs) Long, in a recent speech, declared his radical tendencies and demanded redistribution of wealth. He was traveling with a railroad president in that worthy's private car, and we cannot but smile as we mull over the doubtful cheer which swelled in the host's bosom as Long uttered the aforementioned remarks.

Our recent prediction that it would take considerable mollifying to induce Herr Hitler to re-enter the league of nations and the arms parley is borne out by his demand for equality before he will play ball. We will make another prediction: Germany will be granted equality over the tattered shreds of the French government.

The long-delayed move to recognize Soviet Russia is at last under way, and a good thing it is, too. Not only will friendly relations with that country give us a better chance to study her aims and ambitions, but it will open up a market heretofore closed to the majority of American producers. For instance, Russia is a tremendous potential

Varied Program, Grapes, Interest Local Kiwanians

By Heck

Big day at Kiwanis yesterday! First off, Big Brother Burrow, chairman of the house committee and vice-president-elect, did some wonderful decorating with his fancy Tokay grapes and vines, and served the club with his own vintage of grape juice (within the law) and Okay.

Hal Morton as chairman presented Prof. Thielke with his grammar school orchestra which rendered several numbers of lively and well-received music. It's a treat to hear those youngsters play.

George S. Robson, manager of the community chest campaign, presented an outline of the work, and secured the hearty support of club members as workers in the various sections.

Nic Hedegard presented a resolution pledging support to the water conservation plan providing a clause in the bond proposal for the erection of a storage dam in Los Gatos canyon if and when that region was available for such a reservoir. The resolution was unanimously adopted.

Ira Abbott gave a short talk on the leaf arrangement of plants and the peculiar similarity in the year days of the planets represented in fractional values.

At a meeting of the directors, Dr. W. R. Morgan was elected secretary.

W. A. Baylor of San Jose has been secured to speak at the meeting next Tuesday.

C. E. GROUPS TO STAGE CONCERT IN G. S. AUDITORIUM

Saturday evening, Nov. 4, at the grammar school auditorium, the high school group of the Congregational Christian Endeavor society will sponsor a concert, starting at 8 o'clock.

The feature event of the evening will be a group of songs by Stephen Merrill, accompanied by Marjorie Johns.

Other numbers on the program will include readings by Miss Margaret Douglas, Los Gatos high school dramatic instructor; a quartet composed of Miss Kathryn Wood, piano; Barton Wood, clarionet; Miss Jean Halloway, violin, and Wilbur Morton, trumpet; action songs by the junior intermediates, and a comedy, "Mistletoe and Moonlight," high school group.

Admission prices are 25 cents for adults, and 15 cents for children.

CAMPBELL QUINTS LOSE TO FREMONT, WIN OVER FELINES

Last Friday night at the local gymnasium Fremont high school's lightweight teams defeated the Campbell 110's and 120's by overwhelming scores.

Yesterday the Campbell quints defeated Los Gatos at that place 28 to 9 for the 120's, and 18 to 7 for the 110's.

Good crowds are attending local contests, admission to which is being held to 15 cents.

STATE CONVENTION REPORTS, WATER SITUATION, TOPICS AT TUESDAY'S GRANGE MEETING

At a meeting of the Orchard City grange last night at I.O.O.F. hall delegates to the state grange conovention at Placerville last week reported on the parlty, and the local water situation was dealt with at some length.

Local grangers present at the state gathering included Mr. and Mrs. L. E. Hendricks, Mr. and Mrs. J. H. Campbell, Mr. and Mrs. H. C. Hagen, Mr. and Mrs. H. C. Hutton, Mrs. Zelda Rabb, Mrs. Robert Parkhill, Mrs. H. C. Skow, Mrs. Charlotte Sutter, Harry Barnes and H. G. Keesling.

Master L. E. Hendricks gave a formal report of the activities at Placerville, his remarks being augmented by those of Mrs. Hendricks, who reported on home economics and a bed-spread raffle that netted the order about five dollars. Mrs. Campbell told of the very fine reception accorded visiting grangers, and Mrs. Parkhill talked on the entertainment, which included a trip to Lake Tahoe.

Mr. Gordon, San Jose photographer, gave a historical sketch of Placerville, carrying it back to the period when that settlement was known as "Hangtown." During the convention he had ferreted out some of the old-timers, from whom he had little difficulty extracting incidents of the early days.

Horace Keesling offered a few criticisms on state grange methods, and Harry Barnes, executive committeeman of the state organization, argued in favoor of the proposed additional six-cents per capita tax for grangers, in order that more money might be available for grange work. E. K. Clendening put up a warm argument against the measure, the two gentlemen arguing back and forth with some heat.

Mrs. Rabb also spoke briefly on the convention. Mrs. Charlotte Sutter will make her report at a later meeting of the grange auxiliary.

S. N. Hedegard, with a view to safeguarding the water interest of this comunity, offered the following resolution, which was accepted by the grange:

Whereas a committee representing various organizations in Santa Clara valley are petitionoing the directors of the water conservation district to call a bond election for approximately $2,700,000 for the construction of storage reservoirs on five streams, and of spreading dams on five other streams, it being understood, after deducting cost of land, the federal government will make a grant of 30 per cent of the $2,500,000.

And whereas the Los Gatos creek serves directly the Campbell area, part of which has suffered the greatest fall in water level in the valley, and

Whereas the Los Gatos canyon near Lexington has a good reservoir site which is not now available because of the railroad and highway,

Be it resolved that the Orchard City grange approve the plan of water storage and urge the district directors to call an election and that there be placed in the call a provision that when the Los Gatos dam site is available the district directors be authorized to sell bonds for its construction.

Designed to protect future water potentialities on this side of the valley, Mr. Hedegard's point is generally regarded to be well-taken and, in the opinion of leading conservationists, should be furthered at every opoportunity.

If the election goes through without this clause, Hedegard pointed out, there will come a time when the highway and railroad will cease to occupy the Los Gatos canyon, but we on this side of the valley may be unable to construct a dam there because the rest of the valley will have their problems solved, and might prove unwilling to vote bonds at that time to help this district secure the much-needed water.

It was also reported that activities on the Page dam project are being held up by the railroad company who, it seems, has some prior rights which must be satisfied before work can go ahead. Local leaders fear that the deal may fall into the status of general "buck passing," with nothing done before winter rains.

The meeting closed with a few remarks about the lack of publicity accorded the state grange by the daily press, and the announcement of a card party to be held at the home of Mr. and Mrs. Harry Mitchell on Nov. 8, and a trek of the drill team to Santa Cruze, where they will put on the third and fourth degrees under the direction of Mrs. Clendening, scheduled for Nov. 7.

Enrollment At Grammar School Shows Increase

Enrollment at the local grammar school is now complete, according to Principal Ira Abbott, who said the late prune harvest was responsible for an absentee list of approximately 60 students daily.

At the present time, he believes, all students are on hand, and there is noted an increase of 33 pupils over the enrollment at the same period last year.

In Sierras

E. W. Ohlen, together with a party of relatives and friends, has been enjoying a vacation in the Sierras.

P. T. A. SPONSORS CARD PARTY FOR LUNCH BENEFIT

The grammar school P. T. A. is sponsoring a card party Friday night, Oct. 27, at the grammar school building, the proceeds of which will go toward supplying lunches to needy children.

Tables will be available for both bridge and whist. Prizes and refreshments will mark the evening, which is in charge of Mrs. W. Van Every, chairman, and Mrs. S. N. Hedegard and Mrs. Anthony Jurras.

Visit Fletchers

Miss Kay Olsen of Los Angeles and Richard Fletcher of Porterville visited the latter's brother and sister-in-law, Mr. and Mrs. Philip Fletcher, here yesterday.

Local High Grads Wed In San Jose Saturday Evening

The First Methodist church in San Jose was the scene Saturday night of a ceremony that united in marriage Miss Dorothy Smith and Edward A. Merrill, both graduates of the Campbell high school. The bride is the daughter of Mr. and Mrs. Merton R. Smith of Willow Glen, and the groom is the son of Mr. and Mrs. E. C. Merrill of Campbell. Dr. C. B. Sylvester conducted the ceremony.

Present were immediate members of the families, who saw the bride given away by her father. Mrs. Matthew Burns (Aline Smith) was her sister's matron of honor, and David Merrill, twin brother of the groom, was best man.

Following the wedding the party was entertained at dinner by the bride's parents at their home on Settle avenue, and a wedding party was given later in the evening at the home of Mr. and Mrs. Matthew Burns in Campbell.

The young people will make their home in Richmond, where Edward is employed by the trucking firm of Merrill & Snow.

RECKLESS DRIVER GETS SUSPENDED JAIL SENTENCE

James Wallace, Moorpark avenue, this morning in Judge John Blaine's court, plead guilty to a charge of reckless driving brought by Dr. Weyland Morgan, and was given a 30-day jail sentence which was suspended for six months. In addition, he will be deprived of his driver's license for a similar period.

Wallace was arrested last Friday evening when his car crashed into that of Dr. Morgan, as the latter was turning into his driveway on Winhcester road near Hamilton avenue, damaging the doctor's car considerably. Serious injury was sustained by neither party.

RUTH A. ROBERTS BECOMES BRIDE OF HARRY E. WARMKE

Miss Ruth Adele Roberts, local dancing teacher and the daughter of Mrs. Lilian Roberts, grammar school faculty member, was married at 4 o'clock Friday afternoon to Harry E. Warmke of Stanford, whose parents are Mr. and Mrs. Harry Warmke of San Jose.

The ceremony was held at the famous Stanford chapel, the Rev. Charles D. Gardner officiating. Immediate family members and close friends of the couple were in attendance.

The bride is a graduate of the Santa Clara high school and attended San Jose State college. She is an accomplished dancer, and has appeared frequently on various California stages.

The groom is a graduate of Stanford university, and is at present a member of the faculty there.

Following their honeymoon the young people will reside at Palo Alto.

The FARMERS CORNER

by RALPH H. TAYLOR

Executive Secretary Agricultural Council of California

"Fresh fruit packing house workers are agricultural laborers and therefore exempt from NRA code provisions."

That direct message from Washington, reaffirming the original stand of both President Roosevelt and Recovery Administrator Johnson, is of prime importance to California agriculture at this time.

It is in strict accord with President Roosevelt's strong declaration at the very inception of the NRA movement that the rehabilitation of agriculture must, of necessity, be the first step in any plan of sound recovery.

And it is in line, also, with the President's pledge that the national Recovery program would not be permitted to undermine or overshadow efforts toward securing the restoration of farm buying power under the agricultural adjustment act.

Re-declaration of this policy on the part of the Washington authorities was necessitated by over-zealousness on the part of local NRA administrators in California in attempting to establish policies and regulations which were in direct conflict with the rulings of their superior officers.

Local NRA authorities, in some sections, over-stepped themselves by attempting to lay down the rule that fresh fruit packing house labor, both as to hours and pay scale, must come under provisions of the national recovery act.

Such attempts, on the part of local administrators, not only run contrary to the regulations handed down by General Johnson, but are also in conflict with laws of both nature and economics.

The President and General Johnson, at the start of their activities, recognized the fundamental principle that perishable farm commodities must move while weather conditions and the condition of the products themselves are "right," thereby necessitating special labor regulations.

Any effort to impose fixed labor limitations on agriculture which might be applied to other industries or businesses was also recognized as impossible, due to the fact that there is no guaranteed price on agricultural products. Nor could there be any guarantee that the farmer would be able to pass on, in higher prices for his products, any part of increased labor overhead.

Merchants and manufacturers, in most instances, were able to boost prices to carry at least a major share of the new load added by NRA wage and working hour scales, but the farmer, due to his inability to control market prices of his products, would be helpless to get back any part of the increased costs.

It was in light of these facts that the President and General Johnson agreed that agriculture must be permitted to fight its way back toward recovery under the Agricultural adjustment act, instead of under the NRA program.

For the information of farmers who may come in conflict with over-zealous local administrators, all agricultural workers are exempt from NRA provisions. And such laborers are defined as follows:

"Agricultural workers are all those employed by farmers on the farm when they are engaged in growing and preparing sor sale the products of the soil and livestock; also, all labor used in growing and preparing perishable agricultural commodities for market in original perishable fresh form. When workers are employed in processing products or preparing them for market, beyond the stage customarily performed within the area of production, such workers are not to be deemed agricultural workers."

One stern economic lesson which the depression has taught is that the manufacturer can't sell if the farmer can't buy!

And certainly it will hamper farm-buying if local administrators of NRA, in violation of the established regulations of NRA, seek to pass on burdens to the farmer beyond his ability to pay.

CLUB MEMBERS ENTERTAINED BY THEIR CHILDREN

At last week's meeting of the Women's Service club, held at the home of Mrs. A. C. Anderson on West Campbell avenue, Mrs. Anderson was aided in entertaining by Mrs. Albert Moreland, Mrs. Ira Beal, Mrs. Neil Best and Miss Lois Rice.

A program, coming as a surprise to many of the members, featured children of club members. It included a poem, written by Mrs. E. R. Kennedy and recited by her son Neil; Georgiana Lloyd, daughter of Mrs. W. N. Lloyd, offered a recitation; a duet was rendered by Carolyn and Geraldine Anderson, daughters of the hostess, with the latter at the piano; Alan York, son of Mrs. C. E. York, favored with a piano solo, and little Robert Wellington sang, "Jesus Loves Me."

At a business session presided over by Mrs. W. N. Lloyd plans for the winter's work were discussed at length, and a part of the afternoon was spent in sewing and basket-making.

Refreshments were served at small tables which were beautifully decorated with cosmos and centaureas.

The next meeting of the group will be at the home of Mrs. Dan Clark on South Fourth street. Mrs. Clark will be assisted by Mrs. Ray Fish, Mrs. G. E. Farley, Miss Mary Rodeck and Miss Winifred Grizzle.

Operation

Mrs. Frank Bromley of Hamilton avenue underwent a major operation at O'Connor's sanitarium Monday morning.

Wedding

Miss Margaret Rose, daughter of Mr. and Mrs. Dan Rose, recently became the bride of Frank Gemignani of Niles at a simple ceremony at St. Lucy's church here. Attendants were Miss Marry Perry of Mission San Jose, and George Gemignani of Niles. A reception and wedding dinner at the home of the bride's parents followed the ceremony. The couple will make their home at Niles.

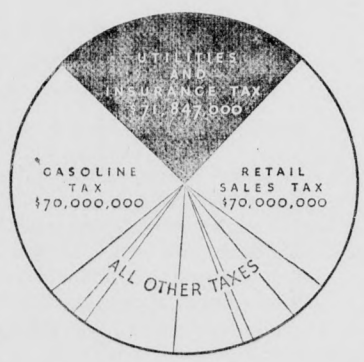
"UTILITY TAXES take State *out of the red*"

THAT was the headline which many newspapers used for an article sent out in news dispatches from Sacramento on September 20th.

State Controller Ray L. Riley announced that day that payment of Seventeen Million Dollars in taxes by California utilities had given the state's general fund a favorable balance for the first time in many months.

It permitted him to return three million five hundred and fifty thousand dollars which had been borrowed from the highway fund to avoid the registration of general fund warrants.

This is merely one indication of the importance of your utilities to your state.



SACRAMENTO, Sept. 20.—(UP)—Payment of $17,000,000 in taxes by California utilities resulted in the state's general fund showing a favorable balance for the first time in many months, State Controller Ray L. Riley announced today.

With receipt of the public utility tax payments, Riley immediately ordered return to the highway fund of $3,550,000 borrowed to avoid registration of general fund warrants. This transfer reduced to $3,400,000 the general fund's debt to special funds.

The above refers to the first payment made to the state's general fund for the fiscal year 1933-1934. A second payment will be made in March.

Out of every dollar you pay to Pacific Gas and Electric Company for your electric service, 14.5 cents represents taxes. Of this 14.5 cents, 9 cents goes to the maintenance of your state government.

In the next two years the state's tax income from the utilities and the insurance companies will be $71,847,000. That is nearly 25 per cent of the state's total revenue. It is more than the $70,000,000, or 24 per cent, which is estimated to be obtained from the retail sales tax.

The utilities do their part—and a large part it is—in the support of the California state government.

Shoddy Playing of Ball Club Rapped By Hal De Fraga

The Campbell team failed to win their third start in the Inter-City league Sunday when they journeyed down to San Martin and came home on the short end of a 6-4 score.

The game was literally given to San Martin by the ragged playing of the Campbellites. Lloyd Quain cannot be given too much credit for the masterful game he pitched. The youthful hurler struck out six and allowed eight hits. Berta's home run coming behind Gwinn's single in the seventh inning were all the runs that the home club should have had.

San Martin was given one run in the second inning when, with two gone, DeFraga booted one and R. Gwinn came through with a single. Again in the fifth, with two gone, Reed threw into center-field trying to get a runner, and two more runs came in. In the eighth, with two gone Thurber threw the ball into the spectators trying to get C. DeSelle in a run between second and third.

All in all, it was a great day for San Martin. Despite the loss, however, Campbell is still in a tie for first place with San Martin. The league race is proving to be a very close one, the Napredaks and Richmond Chase playing an 11-inning tie game Sunday at Campbell.

Next Sunday the Campbell nine plays the Centerville merchants at Campbell in what should be a hot contest.

The game with San Martin was Campbell's bad game of the season. The boys are capable of beating any team in the league if they play the kind of ball that they have played previous to last Sunday's fiasco.

It is hoped that the grandstand will be full at the game next Sunday.

Club Women Are Called To Aid In Big Harvest Sale

County wide interest is being manifested in the Harvest Festival and food sale which the federated clubs of the county will hold Wednesday, Nov. 1, on the state college grounds in San Jose.

Nuts, vegetables, fresh, dried and canned fruits, jellies, jams, pickles, cooked foods, candy, fancy work and "white elephants will be for sale.

Donations and patronage are solicited, as the proceeds of the sale will go towards keeping some deserving young men or women in school. The money is loaned to young people who are residents of our county and attending local colleges.

Members of the Country Woman's club and Pundita circle are asked to notify their officers by Oct. 26 as to their gifts so that a report may be made Friday at Morgan Hill.

Donations may be left at the home of Mrs. D. H. Cramer or Mrs. H. C. Smith, or taken on the morning of the sale to the long table down the center of the circle at the Fourth street entrance to the college grounds.

All Campbell donations are to be marked with the name of the donor and of either club, and if there are dishes or containers the givers wish returned, paste these names on the bottom of same.

This joint effort is designed to take the place of local benefits, but to be a success it must receive the hearty support of club members.

Signed:
Mrs. D. H. Cramer
Pres. Pundita Circle
Mrs. H. C. Smith
Pres. Woman's Club.

LOCAL MISSES PUT ON "NRA" PARTY FOR YOUNG PALS

Miss Ruth Farman and Miss Helen Robinson were hostesses Saturday evening to a group of their friends at an "NRA" party held in the barn behind the T. A. Robinson home on South second street.

The barn was decorated with Blue Eeagle signs, flags, and balloons, which carried out the NRA motif to perfection.

Dancing and games were enjoyed during the evening, after which the hostesses served refreshments.

Present for the fun were Garnet Joseph, Jeannette Wellington, Betty Best, Sylvia Best, Jean Halloway, Sally Davidson, Alberta Lantz, Viva Birnbaum, Madeline Byrnes, Dorothy Mills, Yvonne Stubbe, Barbara Baud, Hugh Cramer, Horace Person, Bob Burrow, Ralph Doetsch, Philip Farley, Richard Morton, Harold Freitas, Byron Bollinger, Kermit Van Every, John Stojanovich, Art Heinsen, Perley Payne, Ralph Smith, Ross Reiger, Howard Guilbert.

Depi. of Agriculture Recovers Money from Commission Houses

Sacramento, Oct. 18—During the period from Aug. 15 to Sept. 15, the division of market enforcement, state department of agriculture, headed by C. J. Carey, chief of the division, recovered and returned to 128 California growers a total of $17,657.81 through the adjustment of controversies between growers on the one hand, and shippers and commission merchants on the other. These figures are shown in the report of the division made public today at the state department in Sacramento.

Recoveries for the first nine months of 1933 are $25,000 more than the recoveries for the entire year of 1932, and have now reached a grand total for the year 1933 of approximately $90,000.

Card Party

A card party will be held by the Cambrian Home and School club at the school house Friday evening at 8 o'clock.

Close-up of Macon On Pundita Program This Afternoon

Thirty members of the Pundita circle met this afternoon at the home of Mrs. B. O. Curry, where Mesdames Vaughn, Pope and Stray were hostesses. A one-o'clock luncheon was served at beautifully decorated small tables on the lawn. A really excellent menu drew many compliments for the hostesses, particularly Mrs. Vaughn, whose idea it was.

Followed a brief business meeting, after which the ladies motored to the Sunnyvale airbase, where they viewed the Macon at close range. Every courtesy was accorded them on their tour of inspection, the ladies said, and they were permitted favors denied single visitors.

New York Guests

Mr. and Mrs. Lloyd Selig recently entertained Ralph Jonas of New York, and his son, Robert, a Stanford student, and Miss Edna Newman, also of New York. While here Mr. Jonas was host at a dinner at the St. Francis in San Francisco. Mr. and Mrs. Selig were numbered among the guests at this enjoyable affair.

Get License

Frank Gomes, 21, Campbell, and Miss Eldene Christiansen, 18, San Jose, Monday secured a marriage license. Details of the wedding were unavailable at this printing.

(Continued from Page 1)

consumer of dried prunes. Interesting, eh?

Among interesting features of the local basketball games is said to be the absence, with a few notable exceptions, of teachers connected with the institution. It is difficult to work up local enthusiasm over school events when the faculty itself remains indifferent.

Senator Herbert Jones, candidate for Republican nomination for governor, says he has found a "harvest of resentment against a sales tax on food while wealth escapes its proper share of the burden."

There is no denying the fact that small incomes suffer considerably from the tax on food, and we believe that an income tax to replace the sales tax would be met with general favor.

TASTY as milk

THINK of Scott's Emulsion of Cod Liver Oil as you think of milk . . . they're so much alike; both so good for children — and grown-ups too. In fact, *a single tablespoonful of Scott's Emulsion contains more vitamin A than does a whole quart of milk.*

Vitamin A is what builds up the body's resistance to many diseases and minor ills — especially "colds" and the more serious complications which often follow.

What's more, Scott's Emulsion is also rich in vitamin D, so wonderful in building strong bones and sound teeth.

And, Scott's Emulsion is so easy to take — so pleasant to the taste — that children actually love it! Do try it. Pure, effective, and trustworthy for sixty years — and better today than ever. All druggists, 60c and $1.20.

THE *BEST* COD LIVER OIL IS IN
SCOTT'S EMULSION
—AND YOU CAN'T TASTE IT!

TAXES—1933

OFFICE OF TAX COLLECTOR
County of Santa Clara, State of California
San Jose, Calif., Oct. 1, 1933

NOTICE IS HEREBY GIVEN that the taxes for the fiscal year commencing July 1, 1933, and ending June 30, 1934, will become due and payable;

FIRST INSTALLMENT. The tax on all personal property, a lien on or secured land, and one half of the tax on all real property will be due November 1, 1933, and delinquent December 5, 1933 at 5 o'clock P. M. when 8 per cent will be added to all first installment remaining unpaid.

SECOND INSTALLMENT. The remaining one-half of the tax on all real property will be due January 20, 1934, and delinquent April 20, 1934, at 5 o'clock P. M. When 3 per cent will be added to all taxes remaining unpaid.

TAXPAYERS MAY, IF THEY DESIRE TO DO SO, PAY THE WHOLE TAX IN ONE PAYMENT.

For the purpose of receiving taxes, I will be in Campbell at the American Trust Company bank on Tuesday, Nov. 14, 1933 during banking h ours, and at the TAX COLLECTOR'S OFFICE in the Hall of Justice Building, Corner St. James and Market Streets, San Jose, California, daily, Sundays and Legal Holidays excepted, from 9 o'clock A. M. to 5 o'clock P. M. to and including April 20, 1934.

THE SECOND INSTALLMENT IS PAYABLE in the Tax Collector's office, San Jose.

THOMAS BODLEY,
Tax Collector of Santa Clara County.

'Main Line,' Sole New England-New York Link in '88 Blizzard, Passes

W. H. Kavanaugh, right, now retired, was line foreman during construction of the "Main Line" in 1887. He is standing beside one of the original cedar poles. Foreman F. E. Maxtel, left, was in charge of dismantling the line.

One of the most historic telephone lines in the country recently passed into history.

It was known as the old Main Line and ran between New York and Boston. It was of open wire, and was the first toll line between those two cities.

Like Town's "Main Street"

The old toll line was well named, for this Main Line was as important in the telephone world as Main Street is to every town which has such a thoroughfare. It was the great Number 1 route between most of New England and the outside world. Of late years its duties have been light. Recently some of it has been used for trunk lines between exchanges, and now it has been dismantled altogether.

In the old days the Boston terminus of the Main Line was in Bowdoin Square, just behind the old Revere House. This was located across the street from the site of the present Bowdoin Building of the New England Telephone and Telegraph Company. The line followed the route of the old Central Massachusetts Railroad to Bondsville, and then proceeded to Springfield. It was near Springfield that the last surviving segment of the original line was located, and now this segment has been removed and the line has passed entirely out of the picture.

Had Many New Features

The toll line was constructed after its practicability had been demonstrated by an experimental circuit, and several of the poles which were set in the fall of 1887 still stand as testimony to the quality of workmanship which has always characterized telephone construction.

The building of this line was unique in another sense, in that it witnessed the application for the first time, of many methods of construction which have since become standard. It was the first line to employ cross arm braces to prevent the cross arms from getting out of alignment. It was the first line to carry copper wire, and it also carried ten pin cross arms and transposition brackets for the first time in telephone history. What is known as a number six iron wire was run along the tops of the poles, not only to strengthen the line but also for telegraph messages.

Withstood Famous Blizzard

Soon after its completion, the old Main Line had the opportunity of showing the stuff of which it was made, for the next year there came the noted blizzard of 1888 which has gone into the records as one of the most severe storms of all time. No better tribute to the work of the linemen on this historic line could be paid than the statement that the plant survived the test of the blizzard and for weeks it was the only means of communication between Boston and New York.

PRUNE POOL AD MAN SEES FINE MARKET

Norton W. Mogge, advertising manager of the United Prune Growers of California, returned to San Francisco this week after a five weeks' tour of eastern markets. While away Mr. Mogge interviewed advertising representatives, magazine publishers, as well as brokers, wholesalers and chain store executives.

Meetings with the trade and brokers were held in New York, Detroit and Cleveland. In addition to these cities, Mr. Mogge met with poster and newspaper representatives as well as brokers and representatives of California prune packers in Chicago, Boston, Philadelphia, Pittsburgh, Cincinnati, St. Louis, Des Moines and Buffalo.

"I think," said Mr. Mogge, "that the stage is set for a good year in the prune business. Everywhere the report was given me that prunes had sold better through the summer than they had in years. Our advertising campaign and the crop control and price stabilization features of the United program have given the buying trade confidence in the future of this business. Prunes are highly regarded now as a staple commodity and as a staple that yields splendid profits when properly merchandised."

While east Mr. Mogge completed arrangements for newspaper advertising in key cities to support actively the merchandising work now being carried on by the ten merchandising men comprising the dealer service staff of the United.

Magazine advertising on California prunes started on Oct. 1. Outdoor and newspaper advertising is scheduled to begin on Nov. 1, by which time new crop prunes will have reached eastern markets.

NOTICE

The local Red Cross supply room has re-opened in the basement of the house immediately west of Dr. W. I. Merrill's residence on Campbell avenue. Hours are from 1:30 to 4:30 every Wednesday afternoon.

NRA Talk

Those interested in the activities of the NRA will have the opportunity of hearing E. Tilden Mattocks, district manager the NRA, who will broadcast a talk, "Progress of the NRA," over KPO Thursday evening at 6:30.

"It's great to feel this warmth in here. Still a Natural Gas booster?"

"Well, why not! I can heat this whole house in only a few minutes. I just turn on the gas—that's all."

Natural Gas

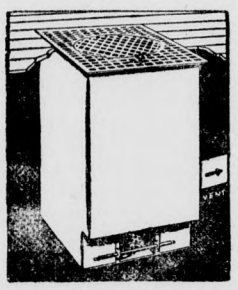
Naturally THE BETTER FUEL

WHAT is one of the best ways to guard against winter colds? See that the rooms in your home are kept at even temperature. Your doctor will tell you that. And Natural Gas will fill this health prescription for you most conveniently and economically.

People who have Natural Gas to heat their homes know this fact. Healthier living is certainly one of the big advantages to be gained by using Natural Gas.

Today's modern and efficient gas appliances in different types and sizes today are inexpensive to install and economical to operate.

Investigate Natural Gas seriously. Get the facts. Make a fair comparison and you will find that you can afford the comfort and convenience of gas heating.



Floor Furnace

Solves the heating problem for homes without a basement. Highly praised by thousands. Saves floor space and is easy and most economical to install and operate.

Circulating Heater

Attractive, low in first cost and highly efficient. It heats two to four rooms. Made in many sizes and styles. Extremely economical to operate.
